

## TD33

Compact intercom  
for intuitive calling,  
enhanced security,  
and seamless access

## Overview

Verkada's TD33 Video Intercom is a versatile and multifunctional device featuring video intercom, access control, and security camera capabilities, all in a sleek and durable form factor. The TD33 delivers excellent call quality across diverse environments. Callers can be seen clearly in nearly any type of lighting condition, and both callers and receivers can be audibly heard in highly-trafficked areas.

Organizations can simplify their entry experiences with native and third-party integrations to access control systems. The TD33 is also equipped with a card reader that is compatible with several credential types and technologies. The intercom camera also offers the full recording and analytics functionality of Verkada's security cameras to boost visibility and security at entryways.

The TD33 is great for outdoor deployments. Its slim form factor makes it mountable on door mullions or other tight spaces, but a variety of mounting options and accessories facilitate easy installation on almost any facade.

## Key features

### All-in-one functionality

Combined video intercom, access control, and security camera functionality simplifies and secures the entire entry experience.

### High-definition video

5MP camera resolution, Wide Dynamic Range, IR LEDs, and 130° FoV allow a clear visual of high-traffic entryways day and night.

### HF, LF, NFC, BLE support

Built-in card reader supports many common high-frequency, low-frequency, NFC, and Bluetooth LE credentials.

### Slim form factor

Sleek profile allows installation on narrow door frame mullions and other areas with limited space.

### Sharp audio

A digital MEMS microphone and 80 dB speaker with advanced noise suppression and echo cancellation combine to deliver maximum audio clarity on every call.

### Built for durability

IP65 and IK07 ratings ensure the intercom withstands strong impact and inclement weather.
