Overview

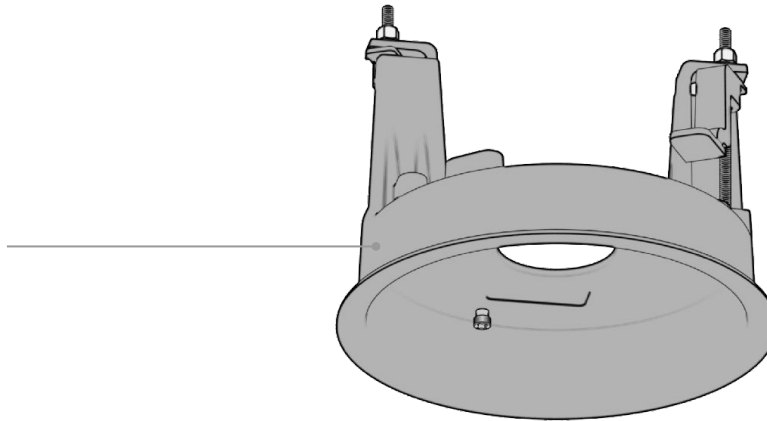

Order of assembly:

Ceiling

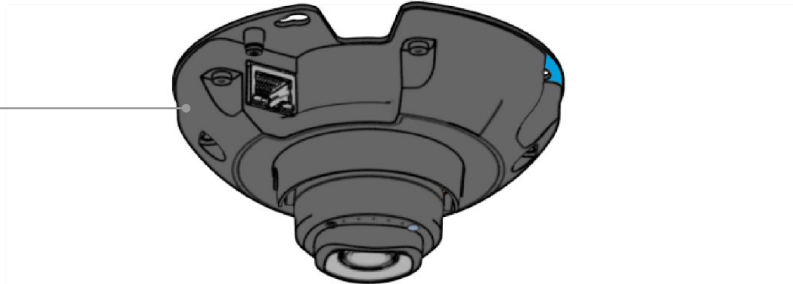

Up to 50mm
thickness

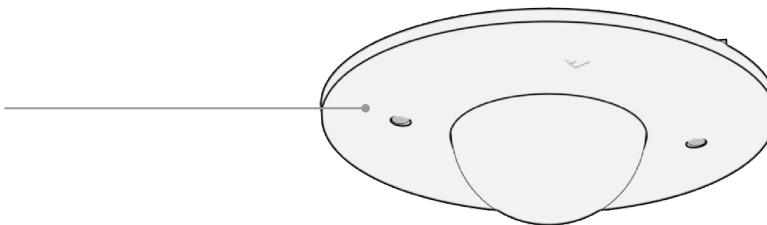

Mounting Bracket

Verkada Indoor Mini Camera with cover removed (Sold separately)

Cover

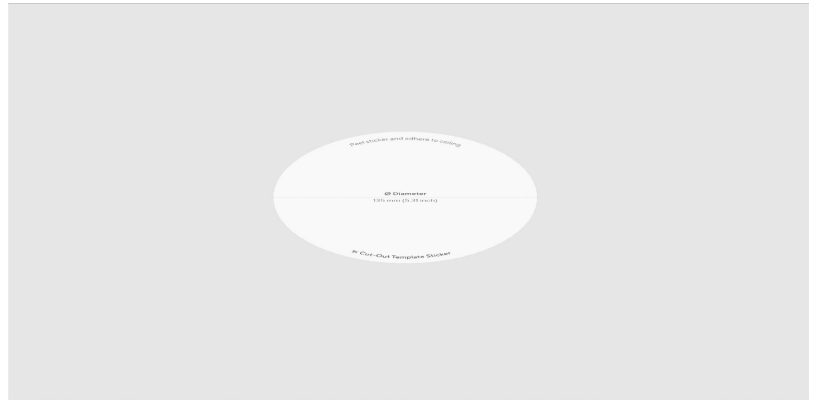

Installation

Mounting (1/3)

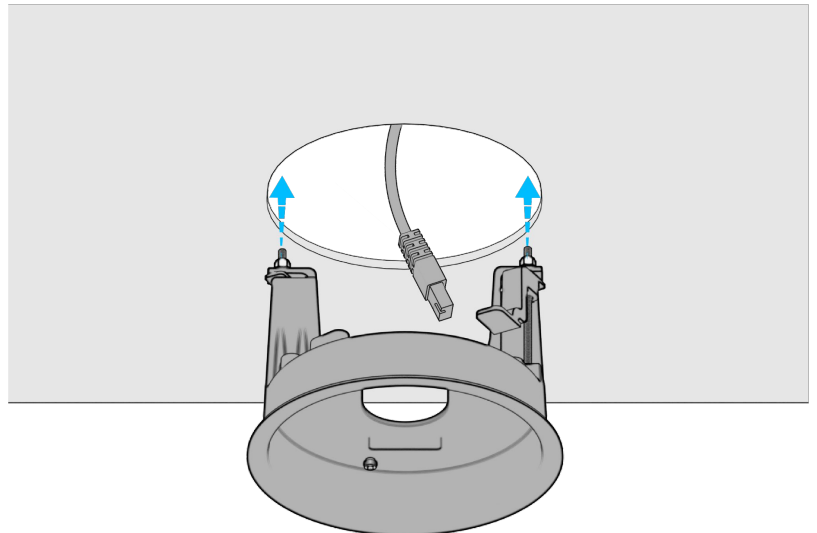

Identify the desired mounting location on the ceiling and adhere the Hole Cutout Template.

Cut a hole, following the outline of the template, using a utility knife.

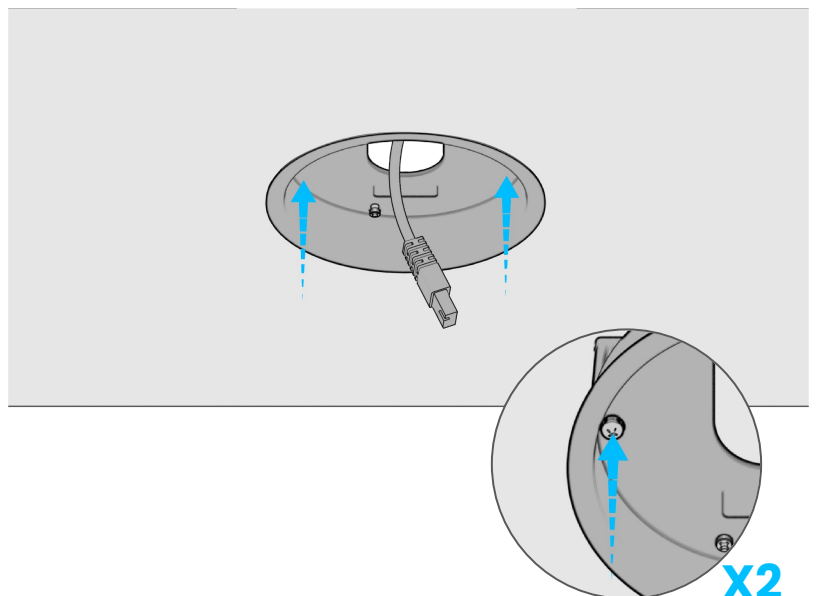

Thread the Ethernet cable through the hole and the mounting bracket.

Press the mounting bracket into the cavity and hold it in place.

Tighten the two screws using a #2 Phillips driver to secure the mounting bracket to the ceiling.

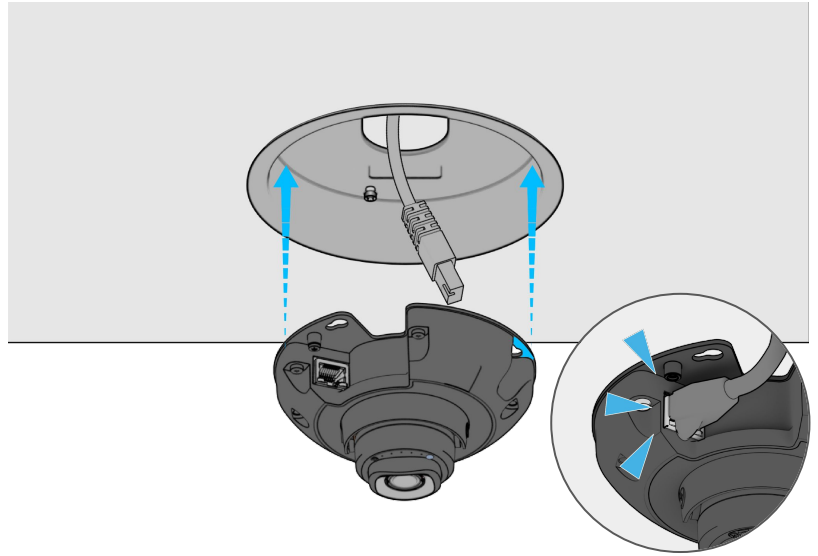

Installation

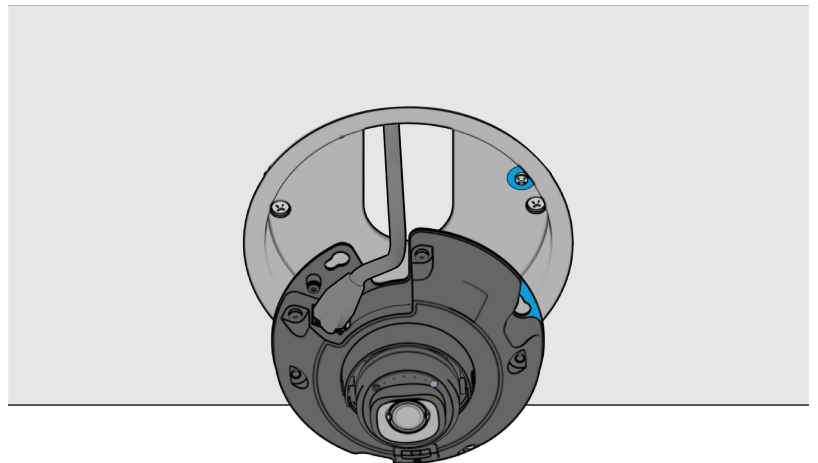

Mounting (2/3)

Retrieve the camera and remove its outer shell and mount plate. Set them aside.

Connect the Ethernet cable to the camera.

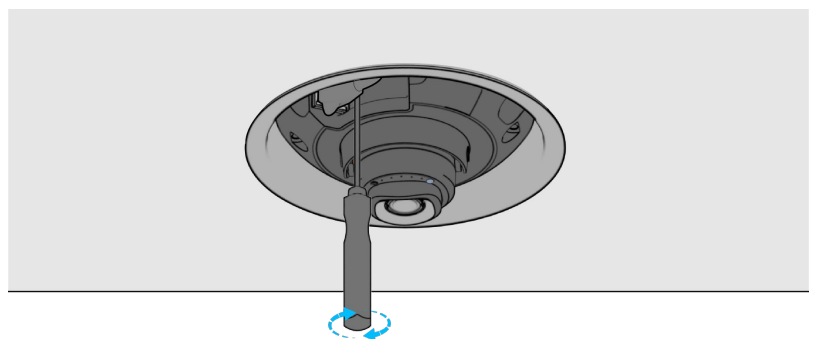

Align the camera with the blue indicator on the mounting bracket. The three screws will align with the holes on the camera.

Press the camera into the mounting bracket and twist to attach.

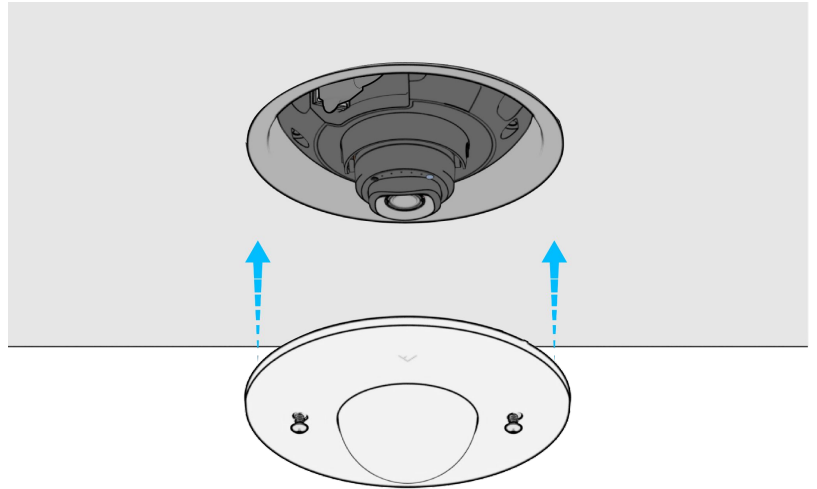

Tighten the T10 retaining screw on the camera to secure it in place.

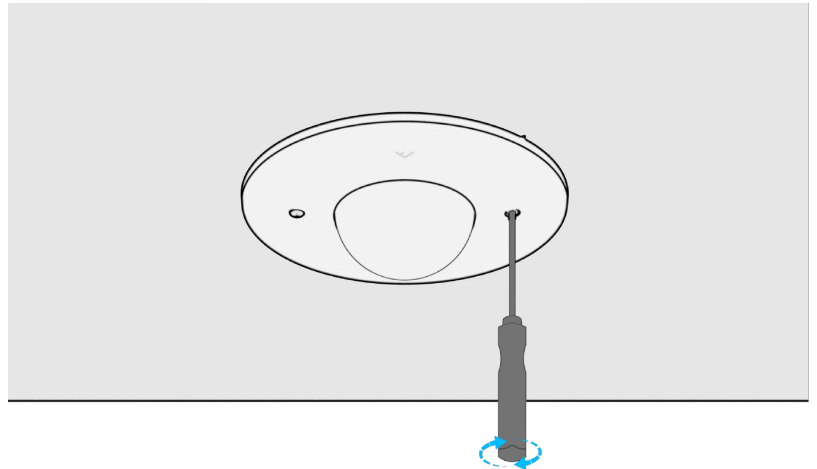

Installation

Mounting (3/3)

Align the blue indicator on the Cover with the blue indicator on the camera, and hold it in place.

Tighten the T10 security screws on the cover to secure.

Appendix
