OBJETOS EXTRAORDINÁRIOS DESDE 1976

Uma história de tradição, qualidade e design

Fundada em 1976, a St. James nasceu com a crença de que a casa é o lugar mais importante das nossas vidas. Acreditamos que nossa casa é o nosso santuário, nossa ilha de conforto e bem-estar, que nos protege de todo o ruído e stress do mundo exterior. Também acreditamos no poder do belo, para elevar o espírito, aquecer o coração e nos ajudar a ter uma vida mais alegre e saudável. Assim, nossa missão sempre foi fazer da casa um ambiente cada vez mais agradável, onde podemos estar cercados de beleza e significado por todos os lados. Fazemos isso produzindo de maneira artesanal Objetos Extraordinários, para presentear, servir e decorar, sempre com o toque humano.

Rompendo com os padrões estéticos do Brasil na época, a St. James foi a pioneira na fabricação de peças com estilo moderno e desenhos lisos. Em menos de 2 anos já vendíamos nossos produtos também mundo a fora, com clientes nos Estados Unidos, Europa, Oriente Médio e América Latina.

Sempre presente em nosso DNA, a combinação entre artesania, qualidade e design, fez com que a St. James se tornasse referência em produtos de luxo para a casa. Privilegiamos o talento e a maestria das pessoas que estão por trás de cada produto, através do equilíbrio entre o material, o desenho e a técnica dos artesãos que trabalham o metal.

A inovação também é parte intrínseca da história da St. James em suas mais diversas manifestações, seja através do design, das combinações de materiais, da multifuncionalidade das peças, dos acabamentos inusitados e das parcerias que transcendem o universo dos objetos da casa.

Nosso principal veículo, a prata, tem grande poder simbólico. É um material com ciclo vital maior que muitos outros e faz ponte entre o passado – a tradição, a história – e o futuro, pela durabilidade do material e do desenho atemporal dos produtos.

Para nós, os tempos em que vivemos marcam ainda mais a importância do lar e da família e de estarmos cercados por menos ruído e mais significado.

Em um mundo onde a maior parte das coisas são feitas para serem descartáveis, nossos produtos oferecem uma abordagem diferente, dando a quem os possui, o direito de acreditar que durarão para sempre.

A history of tradition, quality and design

Founded in 1976, St. James was born with the belief that the home is the most important place in our lives. We see the home as our sanctuary, our little island of comfort and wellbeing to shield us from the noise and stress of the outside world. We also strongly believe in the power of beauty to elevate our spirits, warm our hearts and help us lead a healthier, happier life. As such, our mission has always been to help make the home an ever-pleasant environment, where we can be surrounded by beauty and meaning everywhere we look. We do so by handcrafting Extraordinary Objects – for gifting, serving, and decorating – always with a human touch.

Breaking the Brazilian aesthetic standards of that time, St. James was a pioneer in the manufacturing of pieces with modern styles and clean lines. In less than 2 years, we were already selling our products overseas, to customers in the US, Europe, the Middle East and Latin America.

Ever present in our DNA, the combination between craftsmanship, quality and design helped St. James become a reference in luxury products for the home. We favor the talent and mastery of the people behind each product, through the balance between material, design and the technique of the craftsmen who work the metal.

Innovation is also an integral part of St. James's history in its many manifestations, be it through design, the combinations of materials, the multifunctionality of the pieces, the unusual metal finishes and partnerships that transcend the universe of home accessories.

Our main vehicle, silver, has great symbolic power. It's a material with a life cycle longer than most and that bridges the past – tradition, history – and the future, for its durability and the timeless design of the products.

For us, the times we live in have highlighted the importance of the home and family, and being surrounded by less clutter and more meaning.

In a world where most things are meant to be disposable, our products offer a different approach, giving those who own them, the right to believe they will last forever.

St. James Signature

O design sempre esteve no coração da St. James. Ao longo de nossa história tivemos o privilégio de trabalhar lado a lado com designers incrivelmente talentosos, tanto brasileiros quanto internacionais, em ascensão e consagrados, para criar produtos inspirados por diferentes experiências, histórias e pontos de vista.

Uma assinatura (signature) pode ser definida como um padrão, produto ou característica únicos, através dos quais alguém ou algo pode ser identificado. Também pode ser interpretado como a marca mais íntima e pessoal de alguém, tal qual uma impressão digital.

St. James Signature é uma homenagem ao trabalho desses grandes artistas que colocaram tanto de si em nossos produtos, que agora passam a ser especialmente organizados para destacar sua significância.

Design has always been at the core of our company. Throughout our history we have had the privilege of working hand in hand with incredibly talented designers, both Brazilian and international, rising talents and well established alike, to create unique products inspired by different backgrounds, stories and points of view.

A signature can be defined as “a distinctive pattern, product, or characteristic by which someone or something can be identified”. It can also be interpreted as someone’s most personal and intimate mark, much like a fingerprint.

St. James Signature is a tribute to the work of these great artists who have put so much of themselves into our products, which are now especially organized to highlight their significance.

FILIPE LIMA

Sou Filipe Lima, designer de interiores e de objetos. Represento uma nova vanguarda do Design Mineiro, com um olhar singular sobre proporção, função e criação de mobiliários e objetos. Meu processo criativo é profundamente conectado aos saberes ancestrais da nossa cultura de acolher e habitar a casa. A arte me inspira, assim como o cotidiano, a literatura e, principalmente, a poesia que encontro nos materiais, nas texturas e nos acabamentos. Cada projeto nasce do encontro entre matéria, memória e sensibilidade, criando peças que carregam identidade e afeto. Mais do que desenhar objetos, busco dar luz à cultura mineira e ampliar sua presença no cenário do design brasileiro e internacional. Levar o nome de Minas para novos territórios é um compromisso que atravessa toda a minha trajetória.

Filipe Lima, interior and product designer. A representative of Minas Gerais design, with a unique perspective on proportion, function, and the creation of furniture and objects.

His creative process is deeply connected to the ancestral wisdom of our culture of welcoming others and making a home. He draws inspiration from art, as well as everyday life, literature, and—above all—the poetry found in materials, textures, and finishes.

Each project emerges from the intersection of material, memory, and sensibility, creating pieces that embody identity and affection. More than simply designing objects, Filipe seeks to shed light on the culture of Minas Gerais and expand its presence on the Brazilian and international design scenes. Bringing the name of Minas Gerais to new territories is a commitment he has upheld throughout his career.

Fernanda Marques é formanda da prestigiada Faculdade de Arquitetura e Urbanismo da Universidade de São Paulo, a FAU - USP. A carreira de Fernanda segue a mesma linha conceitual que caracterizou seus anos de formação: o exercício integrado das várias disciplinas.

Arquitetura, Interiores e Design de Produto estão entre as áreas de atuação de seu escritório situado na Vila Olímpia, em São Paulo. Em todas elas, a manutenção de um único estilo: limpo e contemporâneo, sintonizado com o melhor da arte e do design internacionais.
