DERO SERVICES

Free CAD Layouts

Let us maximize your bike parking. Send us a drawing of your space and our expert CAD trained staff will provide you with a free layout that gets the most out of your available room.

Installation

Got a big project you want installed right? Dero can provide installation services anywhere in the United States. Subject to minimum order size.

Free Custom Designs

Got an idea for a great artistic bike rack? Send us a description or sketch and we will send back a free mockup of your design. The possibilities are endless.

Ordering Made Easy

Ordering products is as simple as contacting a Dero sales representative at (888) 337-6729 or sales@dero.com. Our knowledgeable sales staff can answer any questions you may have, including providing up-to-date pricing and shipping information for all Dero products.

Dero products are proudly designed and manufactured in the United States.

A WELL-DESIGNED BIKE ROOM

considers everyone's needs, from the property owner looking to get the most value from their space to the end-user seeking convenient, functional, and secure bike parking. Taking into consideration the layout of your space, the anticipated capacity you will need to meet, and the different styles of bikes to be parked will ensure happy building owners and much appreciated peace-of-mind for end users.

High-density vertical and two-tiered parking increase overall space efficiency.

Changing and storage facilities help riders transition to the next part of their day.

Ample aisle space makes it easier to maneuver, load, and unload bikes.

 9,873,472
 10,807,664
 11,370,501

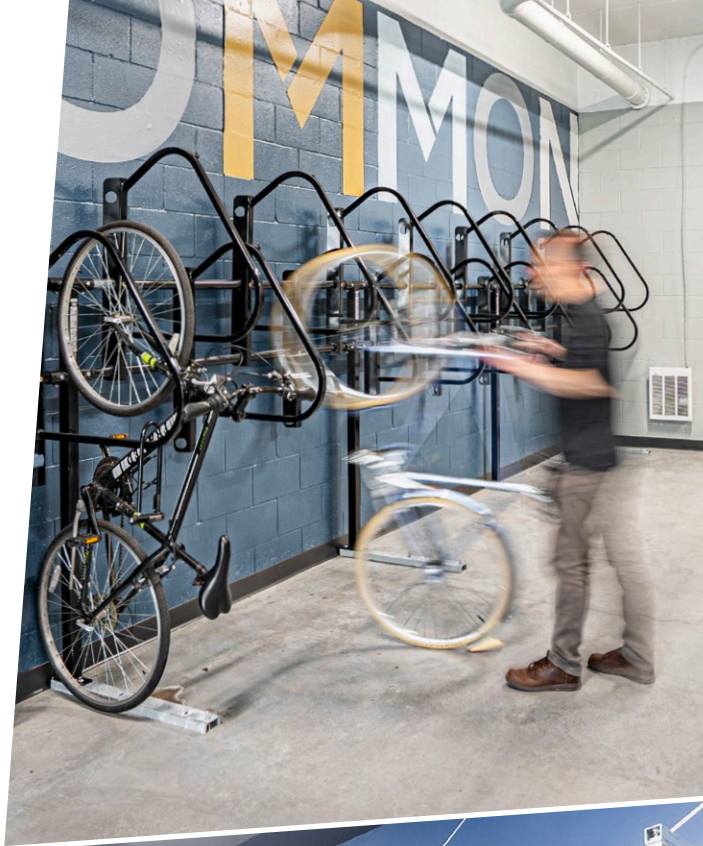

BIKE FILE™

Sturdy sliding hangers allow 9 bikes to be securely stored in an 8-foot section. U-lock compatible.

9 bikes per 8' section

Security: **□□□□□□**

2-TIER BIKE PARKING

DERO DECKER™

Unlike other two-tier systems, our lift-assist top trays slide smoothly down inches from the ground, thus requiring only minimal lifting of the bike into the tray.

Security: 

Patent 8,950,592

DERO DUPLEX™

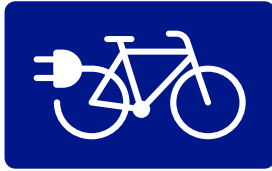

Sturdy trays with high sides keep bikes from slipping off while loading or unloading. Compatible with most standard u-locks. Modular system, minimum 3 sections required.

Security: 

Patent D768,545

E-BIKE CHARGING RACKS

Fuel the e-Bike Revolution!

Dero's line of e-bike charging racks provides a welcome amenity for the increasing number of electric bike owners who want a secure place to charge their batteries while parked. Each rack includes an integrated **4-hour timer** to reduce the risk of overcharging batteries. Makes a great addition to any indoor bike room!

For indoor or covered outdoor use only.

CUSTOM BIKE RACKS

FULL CUSTOM DESIGNS

We can help create imaginative bike racks that combine aesthetics and high-security parking – or choose from an existing design. Visit www.dero.com to see more custom designed racks.

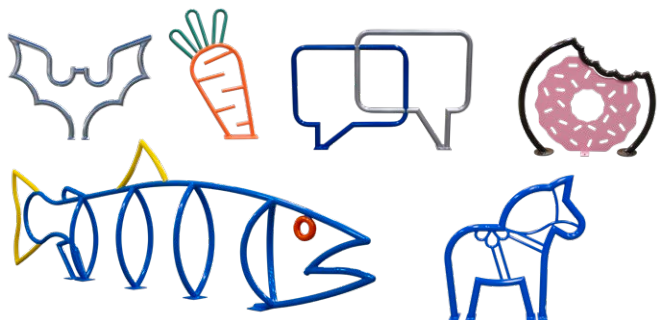

IMAGE INFUSION

Turn your bike racks into durable, weather-resistant canvases with our unique full-color powder coat process.

LOGO RACKS

Eye-catching and functional, laser cut logo bike racks create enduring visibility for your brand.

ICON HITCH

Choose from eight designs: beer mug, bike, bird, coffee cup, silverware, maple leaf, music note, and wine glass. Ideal for coffee shops, restaurants, brew pubs, nature centers, and anyone who wishes to make a statement with these eye-catching bike racks.

Security: 

Capacity: 2

TYPE RIDER® RACKS

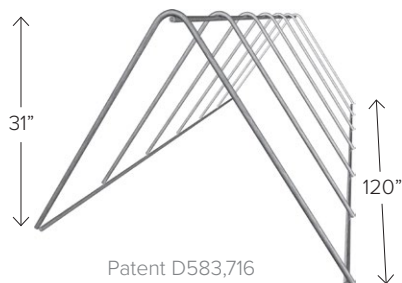

These laser cut, hand-welded bike racks can be made to spell out a word, brand name, and even a hashtag.

Security: 

Capacity: 2

SPECIALTY RACKS

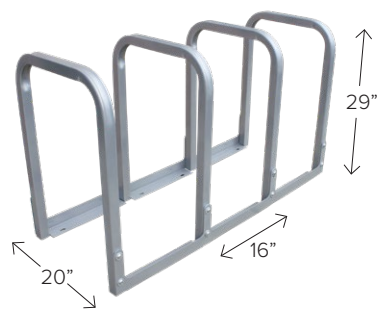

Patent D583,716

EVENT RACK

An innovative design that addresses the needs of any game, festival, or event requiring temporary and secure bike parking. Stackable for easy storage.

Security:    

Capacity: 14

U-LOCKIT

Lightweight, modular system for short-term parking at schools, churches, and small businesses. Ships flat.

Security:    

Patent 9,592,868

WALL RACK

Rubber coating keeps bikes from getting scratched. U-lock compatible. Ideal for reserved car parking stalls in garages or ramps.

Security:    

Capacity: 2

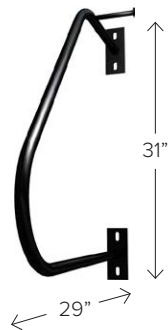

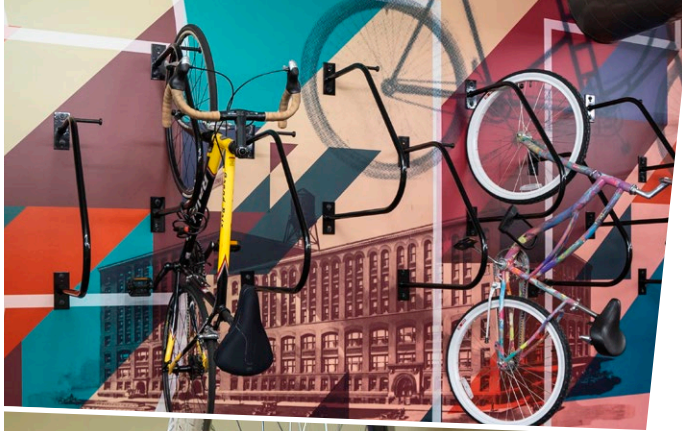

TRACK RACK

Staggered, sliding hook design creates the greatest parking efficiency. **Not lockable.**

Security:    

Capacity: 13 per 8' section

ULTRA SPACE SAVER® SINGLE

Great for property managers as well as for home storage use. Square tube option available.

Security: 

Capacity: 1

BIKE HOOK SOLO

Provides a simple, space efficient way to store and lock your bike.

Security: 

Capacity: 1

METER HITCH

Re-uses existing parking meter poles to serve a dual parking purpose.

Security: 

Capacity: 2

Patent D620,845

LOCK DOCK™

Many regular commuters prefer not to lug their locks with them back and forth. The lock dock provides a convenient place to store locks when not in use.

STREETSCAPES

DERO PARKLET™

The Dero Parklet is an innovative way to build public gathering spaces right in the heart of the urban streetscape. Businesses and organizations with limited sidewalk space now have the unique ability to extend their atmosphere and aesthetic to the outdoors.

Quick Assembly and Removal

The Dero Parklet bolts together quickly, saving time and labor.

Modular Design

Add sections to suit your available space.

Meets Most Deck Codes

The Dero Parklet was designed to meet most building codes for decks.

Ships and Stores Flat

A disassembled Parklet packs into a 4' x 8' space for off-season storage.

Durable, all-weather decking

Sturdy, steel railings
separate users from traffic

Steel flap bridges gap to curb
for safety and accessibility

The Dero Parklet is engineered to meet the best practices guidelines established by the National Association of City Transportation Officials (NACTO).

Leveling feet under platform keep the Parklet level with the curb for greater accessibility and safety, while allowing water to drain freely.

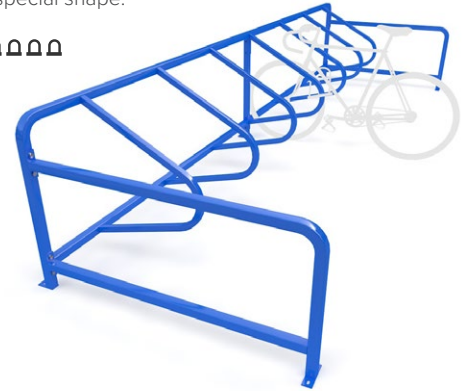

CYCLE STALL ELITE

The Cycle Stall Elite's frame is built from rugged, impact resistant, two-inch steel. It provides a physical barrier from traffic, while including racks with optimum frame support and security. We can customize this rack with your logo or special shape.

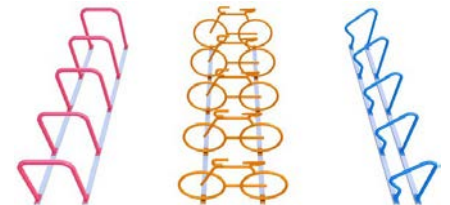

Security: **□□□□□□**

Capacity: 14

CYCLE STALL BASIC

The Cycle Stall Basic kit covers the needs of cities and businesses that want to provide an on-street bike corral at a low cost with minimal changes to infrastructure.

Choose your style of rack!

WAYFINDING SIGNS

Help bicyclists find your amenities by posting directional signage nearby. Visit www.dero.com to see our available designs.

E-SCOOTER RACK

Declutter sidewalks and create orderly parking for electric scooters. The E-Scooter Rack accommodates numerous scooter models.

Capacity: 4 scooters

Tool Kit
p. 27

FIXIT® PLUS

Public Bike Repair Station

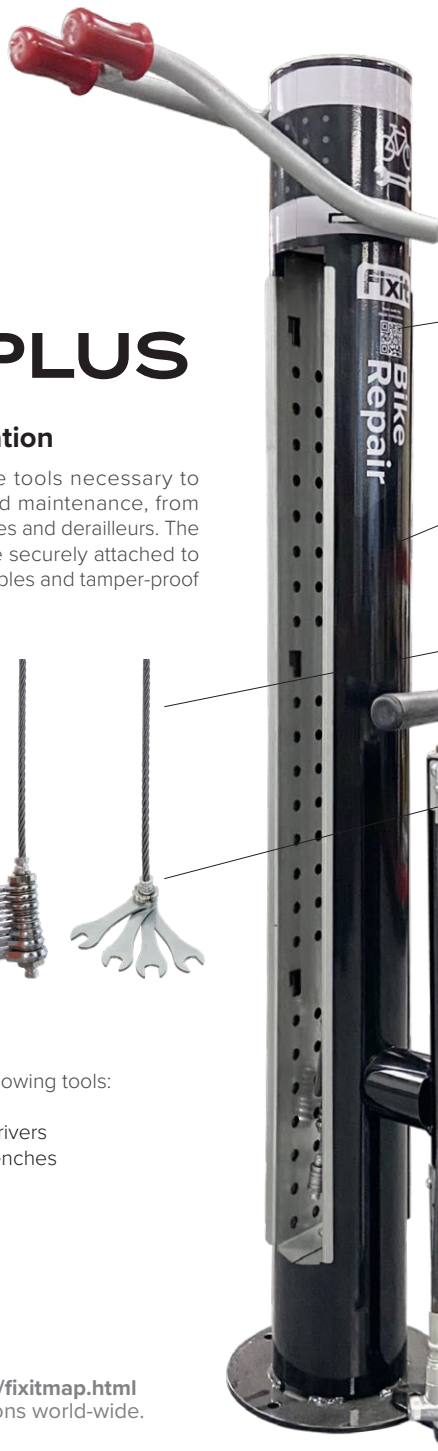

The Fixit Plus includes all the tools necessary to perform basic bike repairs and maintenance, from changing a flat to adjusting brakes and derailleurs. The tools and optional air pump are securely attached to the stand with stainless steel cables and tamper-proof fasteners.

Tool Kit and Fixit include the following tools:

- Phillips and flat head screwdrivers
- 2.5, 3, 4, 5, 6, 8mm Allen wrenches
- T25 Torx wrench
- 32mm Headset wrench
- 15mm Pedal wrench
- 8, 9, 10, 11mm box wrenches
- Tire levers (2)

Visit www.dero.com/fixitmap/fixitmap.html to see a map of our Fixit stations world-wide.

(pump sold separately)

QR code takes smart phone users to comprehensive bike repair videos

Large surface area for sponsorship, branding, or wayfinding signage

Tools are secured with braided stainless steel aircraft cables

Screwdrivers and Allen wrenches are on swivel connectors for easier use

Pump can be mounted on either side of Fixit

Pump hose is reinforced for maximum protection

All metal pump head accommodates Presta and Schrader valve stem types

Patent 9,498,880

PUBLIC BIKE PUMPS

Our Air Kits are public bike pumps made of steel with anodized aluminum parts, and stainless handle and plunger to decrease wear. Features our universal Dero Metal Head™ that works on both Presta and Schrader valves. Pump head hangs above the ground. Galvanized protection plate protects finish. Easy to service.

AIR KIT 4

The Air Kit 4 combines our most robust bike pump with an integrated wheel holder to keep your bicycle in place. The air pressure gauge is on the side to avoid fogging.

Patents
11,199,185
11,460,017

AIR KIT PRIME

Stand alone or attached to a Fixit, this new sleek design will help people to keep on rolling. Fits existing Fixits.

Patent 11,199,185

METAL HEAD

The Dero Metal Head is ready to rock the world of public bicycle repair. Its sturdy cast aluminum construction and easy-to-use functionality takes center stage. Additionally, the new pump head features universal Presta and Schrader valve compatibility.

TOOL KIT

All the tools are securely fastened with stainless steel cables and tamper-proof fasteners.

Patent 9,505,124

PUMP STOP

The Pump Stop holds bikes upright while filling tires with air. It is the perfect accessory to any Dero public air pump.

BIKE SHELTERS

Cycle Station 2
p. 30

Bike Depot
p. 30

Pocket Shelter
p. 31

Kolo Shelter
p. 31

BIKE DEPOT

The Bike Depot bridges the gap between short and long-term bike parking. An optional wire mesh enclosure provides maximum security for stored bikes. Accommodates 2-tier parking.

VIZOR® SHELTER

A simple, elegant cantilevered bicycle shelter.

Patent D748,562

CYCLE STATION 2

With a high roof and open platform, the Dero Cycle Station accepts bike corrals, vertical, or two-tiered bike racks configured to meet your specific needs. Additional options like enclosures and lighting are available.

KOLO® SHELTER

The unique styling of our Dero Kolo Shelter will help beautify your facility and provide secure, covered bike parking for cyclists.

ADD LIGHTS FOR ENHANCED SECURITY

Dero offers bright, solar-powered lighting units for the exterior of most of our bike shelters. Ask a sales representative for more details.

POCKET SHELTER

Small and versatile, the Pocket Shelter stores bikes in areas that would not normally accommodate bike parking. This shelter is a modular system that provides covered and secure bike storage but is extremely space efficient and cost-effective.

BIKE LOCKERS

SMART BIKE LOCKER powered by bikeeep

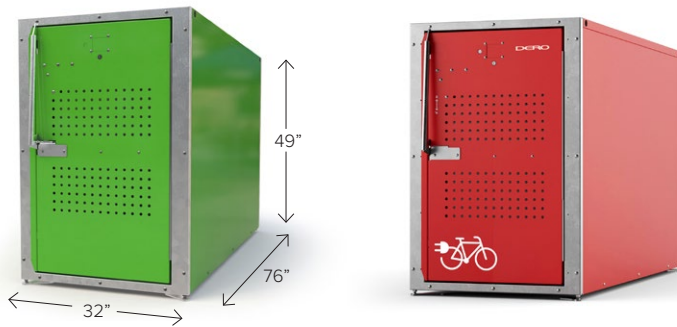

With Bikeeep's smart sharing system integrated into our sturdy, steel locker, we combine convenient and secure storage for users and easy management for system operators.

Do away with physical keys – cyclists access lockers through the Bikeeep app, which allows options for reserving spaces ahead of time, and paid bike parking.

Capacity: 1

Patent D1,103,995

Bikeeep is a registered trademark of Bikeeep OU

BIKE LOCKER SINGLE D1 and E-BIKE LOCKER SINGLE D1

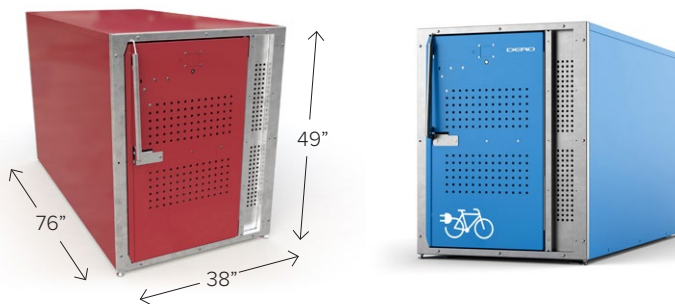

This steel bike locker is bike security at its best. Ideal for long-term parking, its steel construction makes sure thieves stay out. Ships flat to save you money.

Capacity: 1

4-HOUR POWER!

Dero E-Bike Lockers include an electrical outlet with an integrated 4-hour timer to reduce the risk of overcharging batteries

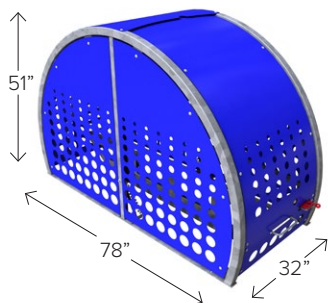

BIKE LOCKER DOUBLE D2 and E-BIKE LOCKER DOUBLE D2

This wider version of our steel bike locker allows the option to store two bikes – with doors at each end and a divider between.

Capacity: 2

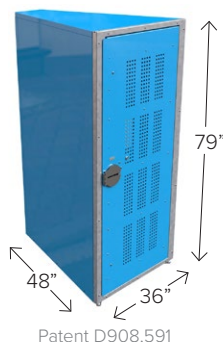

VELOPORT™

The graceful lines and modern laser cut design makes the Veloport stand out while offering the security and durability you need in your long-term bike parking. Lift-assist door and lockable inside tray help to guide the bike into the port.

Capacity: 1

Patents
D803,762
9,920,547

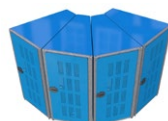

DERO VERTICAL LOCKER

The Dero Vertical Locker unites the space-saving advantages of our Ultra Space Saver parking system with the additional protection of fully-enclosed bike storage. With its unique trapezoidal footprint, the Vertical Locker can be arranged in single or double rows or curved configurations.

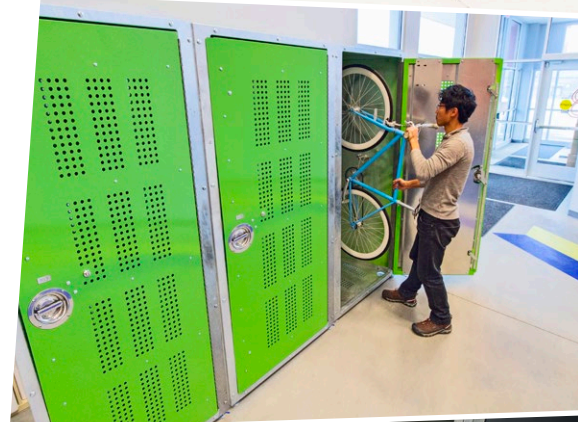

Capacity: 1

Double-sided row

Curved configuration

DERO TWO-TIER LOCKER

We take long-term bicycle storage to new heights with the new Dero Two-Tier Bike Locker. Its upper tray lift-assist makes it easy to load and provides a space-saving solution to meet the increasing demand for covered bike parking.

Capacity: 2

FIBERGLASS LOCKERS

These fiberglass bike lockers come in several sizes. The 300 Series ships fully assembled, each unit is self-contained, two colors are available, and there is a stackable option.

The 350 Series is modular, comes in seven colors, includes air vents, stainless steel hardware, gear hooks, number plates, and requires on-site assembly.

STANDARD PRODUCT OPTIONS

FINISH OPTIONS

Galvanized

Hot-dipped galvanized is an extremely durable and low-cost finish option. The bike racks are hot-dipped galvanized after fabrication and then hand ground to ensure a clean, safe surface.

Stainless

Stainless steel is the most beautiful and durable option. We use a 304 grade stainless steel which will continue to look new and attractive for many years. Satin finish is standard.

PVC Dip

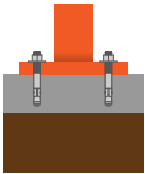

Galvanization is applied before being dipped in UV-stabilized PVC. The coating is subsequently cured to produce a coating that offers excellent protection against abrasion, impact, and corrosion.

Powder Coat

Powder coating provides a durable finish using a solvent-free process that is better for the environment than liquid paints. We offer 20 standard colors and can special order from over 250 custom colors.

MOUNT OPTIONS

Surface

Metal flange anchors to the ground with included wedge anchors. Other special anchors such as tamper-proof nuts are also available.

In-Ground

Rack is embedded into concrete surface.

Rail

Racks are bolted to rails which may be anchored to surface or left freestanding.

Tamper-resistant Fasteners

Breakaway Nut

Stainless Tamper-Proof Nut

Triple-Slot Nut

Concrete Spike

Smart Bike Parking

by **bikeep**

Phone app
operated

Multi-layer security keeps bikes safe

Bikeep Mobile app that can be tied to Bikeep provided **contactless card**

Built-in charging for e-bikes (optional)

Bikeep provides the most advanced network of high-security parking stations for private bikes, and are distributed in the United States through Dero.
