- Shopify
- Custom Software

imado.co

IMADO.

We are a boutique agency with perfectly selected specialists. Our team specialize in designing and developing modern websites, shops and web apps.

We provide companies with full outsourcing of design and programming services, offering a flexible model of cooperation.

Our goal is simple: to understand our clients' vision while building a website that gets noticed.

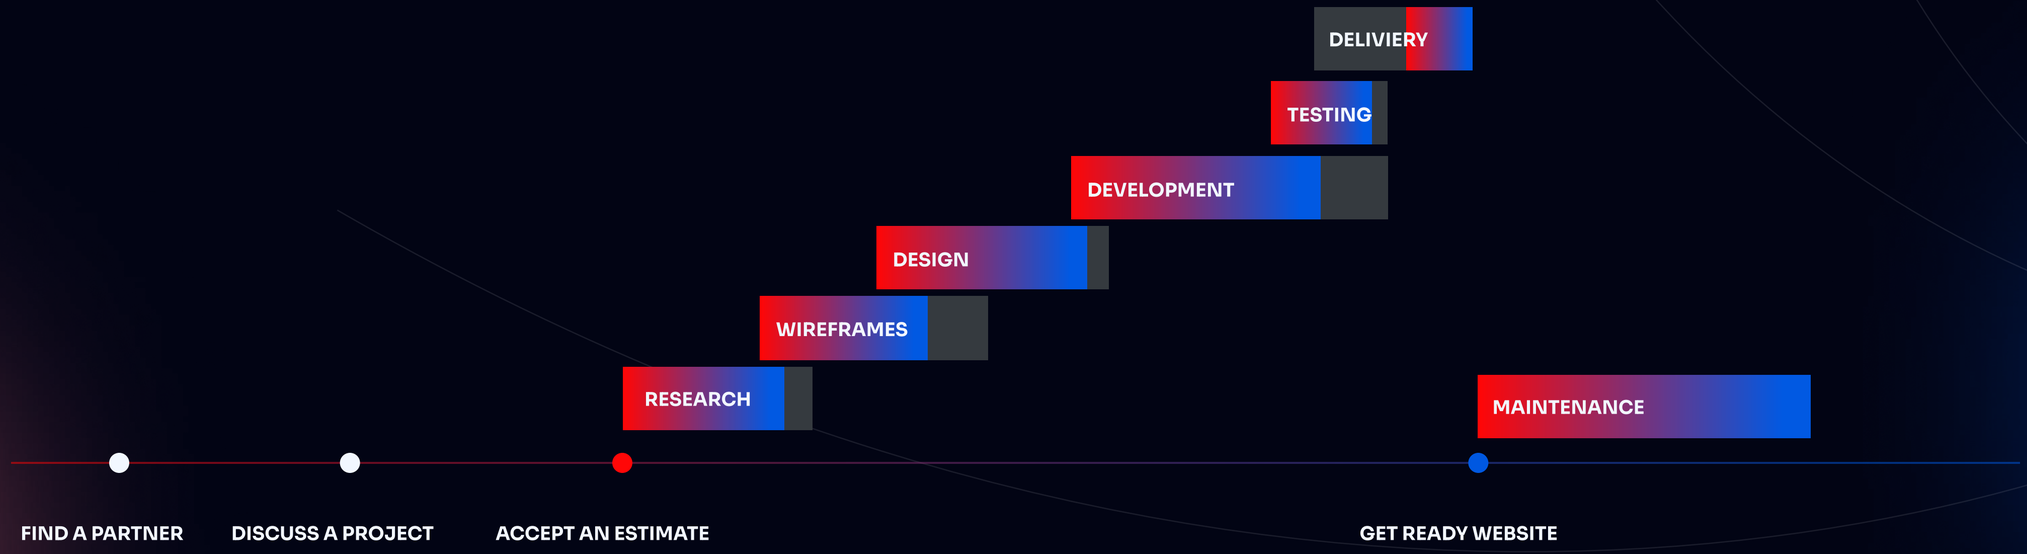
We specialize in designing and development Wordpress / WooCommerce custom themes.
We are a quite young team, in business for a few years now, since 2016. Our team works fully remotely. Everything is done in house, we don’t use page builders or ready to use themes.

What you can expect?

- 100% handcrafted code
- Page speed > 90/100
- Scores in GTMetrix > 90%
- Secure, clean code, writing with PHP Standards
- Easy to manage admin panel
- SEO friendly markup

The technologies and tools we use

Take advantage of proven processes that determine the success of your project



Some of the feedback summaries from Clutch:

> The theme was developed correctly and submitted in a timely manner. IMADO worked closely with the in-house team, providing consistent updates at every stage of the project. The vendor also impressed with their agility and communication skills.

Wei Tan
Co-Founder, The Orchard Agency (Australia)

Verified Review by Clutch.co

> The project was a success. IMADO hit the deadline and even had some extra time to add new, unplanned items prior to the event launch. The client was impressed with their output, and their communication was exceptional despite timezone differences. Overall, they were creative and outstanding.

Adam Sugihto
Founder, Intentional (Australia)

> IMADO was able to help launch the site with the client. The solution was developed with a lot of new features that weren't available on their previous project. The team's communication was flawless and they provided quick response times throughout the engagement.

Juliusz Micko
CEO, Vixa Games (Poland)

Verified Review by Clutch.co

> IMADO delivered a platform that's received overwhelmingly positive feedback from customers. The website was enthusiastically received by the internal team as well. It's repositioned the client to be more relevant in the digital space. The team maintained an excellent workflow and a quick turnaround.

Levan Bardavelidze
CEO, LeJul GmbH (Germany)

Verified Review by Clutch.co

> After deploying their new and improved website, the client noticed an increase in their page speed scores. IMADO works closely with the client, providing regular updates and feedback. The team also proved capable of delivering solutions according to specifications.

Sarah Gardiner
Marketing Manager, Tech Company (USA)

Verified Review by Clutch.co

> Since their partnership with IMADO, the client had seen its search visibility and user engagement increase significantly. They had a high degree of accuracy and understanding of the project, which led to a clear and timely development.

Sarah Gardiner
Director, Codarity (United Kingdom)
