

Training

- **Esploro Essentials**

[No image available](#)

This series of videos presents the fundamentals of the Esploro Research Information Management System. It covers the various sorts of information, entities, and relationships that can be stored, displayed, and analyzed in Esploro. Research repository managers, research librarians, and research office staff will learn how to work with the back-end of Esploro, the Research Information Hub.

- Orientation
 - Research Assets
 - Additional Entities
 - Analytics
 - Smart Harvesting
 - Research Portal and Profiles
-

- **Esploro How-To Videos**
